

Bike Tours in the TERRE di PISA

Here are our proposals for bike tours with a food and wine theme and not only: discover and savour the excellences of the countryside of the Terre di Pisa.

By bicycle, on roads with little traffic and in complete safety thanks to our technical support, you explore this part of Tuscany, perhaps the truest of the region. Routes through villages, hills and ridges, from which the views sweep over vineyards, wheat fields, olive groves and dirt roads decorated with cypresses that characterize the Val d'Era.

You start and end of the rides at the accommodation, who will welcome you for your selected themed tour experience. Here the staff will be at your disposal, in case you want to finish the day with a tasting or a toast to the splendid "Terre di Pisa" who welcomed you for this unique experience.

For the experiences we use multiple suppliers and, based on their availability for dates, number of participants, the suitable one will be identified. The services that you will receive will in any case be guaranteed and comparable. Any changes will be communicated in advance.
* Due to the COVID emergency, visits to some production areas may not be guaranteed to avoid any risk or external contamination.
