

On this bike tour you will cycle around 30km in the shadow of Volterra, famous for its history as an Etruscan, Roman, Medieval and Renaissance city, for its traditional alabaster production, and for its unique landscape of cliffs and ravines in an area of the Terre di Pisa rich in pastures, grains and forage ideal for grazing animals.

Due to the hilly landscape in this area and the inclines on the route, this tour, like the others, is particularly recommended for people in good physical condition, but anyone can take it on by hiring our e-bikes!

The departure and arrival point of this cycling experience will be a company, an excellence of the region, active in cheesemaking for over 30 years. Since the very beginning they have adopted a completely organic production cycle: sowing and harvesting forage, and selective breeding, which, along with the climate, the soil and the artisan production process, influence the final quality of the cheeses. The milk from their sheep is also processed for the production of raw-milk Pecorino, difficult to produce and nowadays a rare find, but with an unmistakable flavour: a great synthesis of technological rigour and ancient knowledge, while maintaining the tradition of the typical flavours of Tuscan sheep farming.

Here, you will be given your chosen bike in the right size for your measurements (height and weight, male/female), which you provide when booking. You will also be given a helmet and a water bottle, and then our representatives will take care to seat you correctly on the bike and provide you with the practical instructions needed for the tour.

At this point you will be ready to cycle for around three hours, immersed in the countryside in the heart of the "Terre di Pisa", on roads with very little traffic, sometimes even dirt tracks on the crests of the hills, which you will find luxuriantly green in the spring, and straw-coloured once the wheat is ready for harvest. Just look around and you'll find the perfect viewpoint for taking photos. Near the end of the tour you will arrive in Volterra, where a coffee stop will certainly be appreciated. Then it's back on the bike to arrive swiftly at the departure point, where you will return your bikes and accessories to our representative, who will be available for technical assistance for the entire duration of the tour. Naturally, the staff at the dairy will be available in case you want to finish your day by tasting their products, as a memory of the "Terre di Pisa" that have welcomed you for this experience. In the company shop you will also be able to buy the products that you have tasted or seen being made.
