

On this three-hour bike tour, you will enjoy a route entirely on back roads with very little traffic, sometimes on dirt tracks on the crests of the hills, which you will find luxuriantly green in spring, or straw-coloured once the wheat is ready for harvest. This is all in the western Pisan Hills, in the "Terre di Pisa".

Due to the hilly landscape in this area, this tour, like the others, is particularly recommended for people in good physical condition, but anyone can take it on by hiring our e-bikes!

The start and end point of this cycling experience will be a company, an excellence of the region, which has been creating natural, organic cosmetics for over 30 years, also from essential oils extracted from aromatic plants, including the lavender grown nearby. Naturally, the staff at the company will be available, if you are interested, to give you the opportunity to find out about the characteristics of the plant, its cultivation, the essential oils, and the curiosities of the distillation process.

Here, you will be given your chosen bike in the right size for your measurements (height and weight, male/female), which you provide when booking. You will also be given a helmet and a water bottle, and then our representatives will take care to seat you correctly on the bike and provide you with the practical instructions needed for the tour.

At this point you will be ready to cycle for around 30km on roads through the hills, immersed in the countryside, surrounded by the hills of the "Terre di Pisa". You will encounter the villages of Orciano, Lorenzana and Santa Luce, making a stop to see the lavender cultivations before going down to the shores of the lake in the WWF oasis to enjoy the moment... After catching your breath, it's back on the bike in the certainty that before long you will find the perfect viewpoint to take some fantastic photos, and then a stop for coffee where you can appreciate the relaxed atmosphere of our little villages, whose rhythm of life has changed very little over the years.

Near the end of the tour, you will pass through Orciano before arriving swiftly at the departure point, where you will return your bikes and accessories to our representative, who will be available for technical assistance for the entire duration of the tour. In the company showroom, you can buy the products you have seen being made, to take home a memory of the beautiful "Terre di Pisa" that have welcomed you for this unique experience.

OVERVIEW

- Season April to October
- Hilly terrain, back roads with low traffic
- Distance 30km Elevation gain 320mt
- Estimated biking times 3 hours

INCLUDED

- English speaking staff/assistant
- GIANT 27speed hybrid bikes
